Recovery Program. If a program is announced we

will post the information on the website at coaldale.ca with details as to location and hours of operation where you can go to submit a claim for damages you have incurred during the storm event.

Please remember to contact your insurance company first to determine if your damages will be covered by your policy. Disaster Recovery Programs do not pay for damages that are covered by insurance. Take as many photos as you can and document your damages as well as provide receipts for any clean up or repairs you have done.
