

UTILITY RATES FOR THE TOWN OF COALDALE
EFFECTIVE JANUARY 1, 2024

The Town’s utility systems operate under a “user pay philosophy”, with each user billed according to their actual water consumption. Sewer rates are based on the average water consumption for the months of November through March. This calculation is based on actual water consumption discharged through the sanitary sewer system. April to October sewer consumption is based on this winter average. Utility rate increases are based on ensuring the funds collected cover the cost of providing the service.

The tables below reflect the utility rates for 2024 (Utility Rate Bylaw 882-C-12-23)
