CONSTRUCTION IS A GO!

PROJECT UPDATE

Tollestrup Construction Inc. has been selected as the contractor for the Main Street construction, marking the commencement of the long awaited revitalization project. Established in 1940, Tollestrup initially got their start by excavating basements in the City of Lethbridge and have since been a mainstay of the southern Alberta construction industry for years. They are known for their reliable customer satisfaction and commitment to proactive communication with project stakeholders.

Construction on Main Street is expected to start in the first week of June. Equipment mobilization and start-up communication with Main Street stakeholders will be the focus for the last week of May. Meetings have been set to discuss the official detailed project timeline to be broken down into several stages.

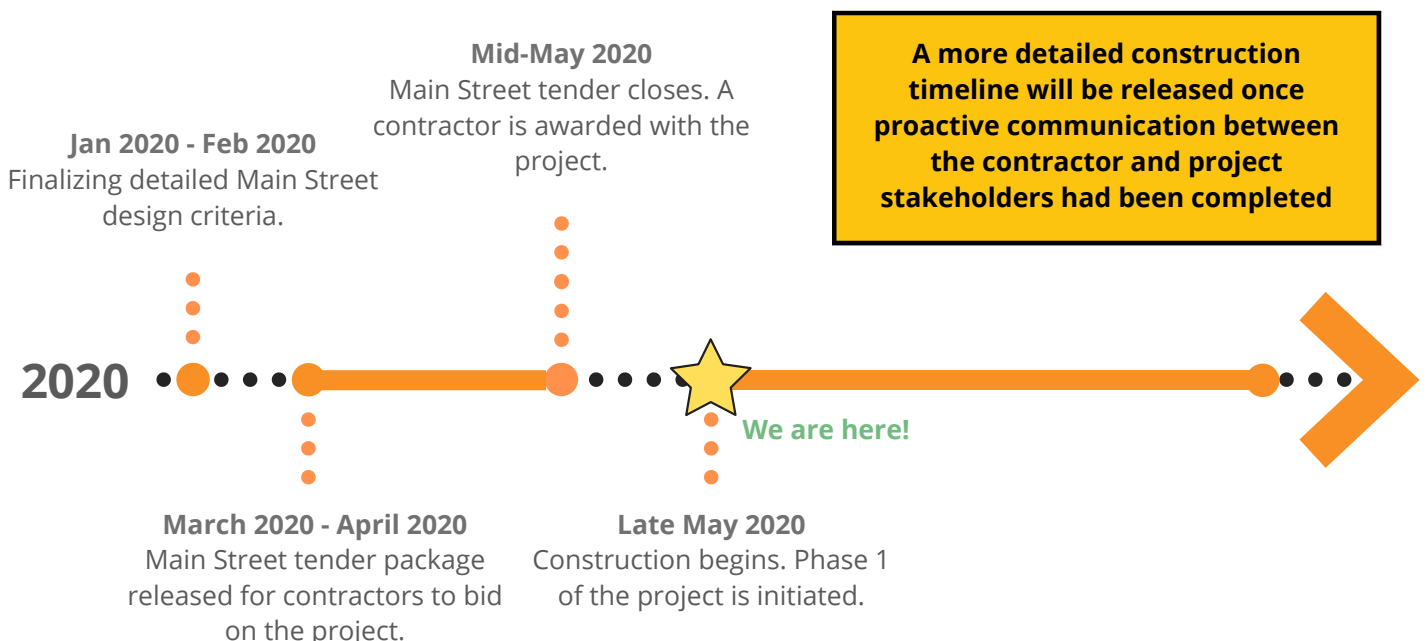

"... Tollestrup consistently redefines innovation in everything they do. Truly a great company to work with ..."

WHAT'S NEXT? MAIN STREET PROJECT TIMELINE

INFORMATION

What's next for the Main Street Revitalization project? See our estimated project timeline below. For more information about the construction of the project, please visit: www.coaldale.ca/main-street-revitalization.

SHOW YOUR SUPPORT - SHOP LOCAL

The upgrades to Main Street, when completed, are going to be a great improvement for our local business community. Not only will this project provide the much-needed updates to existing infrastructure, it will also enhance the pedestrian experience and make it a more desirable destination for business owners and customers alike.

The project plan is designed to ensure that businesses can remain open during construction. From the early planning and design stages of the project, we knew it was critically important to minimize the impact to our local businesses during construction. Businesses are expected to remain open during the project, which means you will be able to access your favorite shops while improvements are being made right outside the doors!

We know that construction can be inconvenient, even when steps are being taken to reduce the impact of the work. We are urging everyone to continue to frequent local businesses over the construction period to show your support. Local businesses are the heart of our community and will play a significant role in our economic recovery moving forward. As provincial restrictions related to COVID-19 are lessened, local businesses need your patronage now more than ever. Be sure to come on down to Main Street, check out the improvements that are being made, and show your support by shopping at your favorite stores!

MAIN  STREET

TEMPORARY WAYFINDING

INFORMATION

To provide residents and visitors information and directions on how to navigate the Town, temporary signage will be placed around the streets and pathways to help direct traffic towards local businesses on Main Street. This will also allow people to see that their beloved Main Street shops are still open during construction. Keep an eye out for these new signs during construction!
